# The Empyrean was elected EB-5 project gold standard

Published: 15:43:00 September 26,2012 Views: 14

Arizona, Scottsdale 2012-09-26 (PRIMEZONE) - U.S. investment company Empyrean West successful strategic advisory and ample funds provided by the Global Private Funding to strengthen its position in the United States within the U.S. government Immigrant Investor Program ('EB-5') guidelines to influence the scope of employment creation. relevant terms are not disclosed.

Global Private Funding for next month's series dished out an olive branch to the Empyrean EB-5 regional center project funded cleared the way, when the the Empyrean will hotel industry (Hyatt and Marriott, health care industry (Miller Architects) and energy industry (U.S. Fuel and an undisclosed Native American tribes goal.

EB-5 project will allow private companies to potential foreign investors to apply for a U.S. immigrant visa capital investment in the United States, thus creating employment for Americans. According to the strict guidelines of the EB-5 foreign investor shall be made a minimum of U.S. \$ 500,000 in a new commercial enterprise the amount of the investment, and create 10 jobs within two years at least, in order to obtain permanent U.S. resident status for themselves and their families. investors generally get temporary green card through the EB-5 project, the family of investors during this period educated in the United States, the EB-5 project to build a bridge leading to the permanent residents of the United States will provide investors and investors are expected to recover the investment within five to seven years.

Empyrean responsible Jay Carter and David Keller said that since the U.S. Congress in 1992 authorized the establishment of the EB-5 pilot projects since the project has been the logic and legal accountability complexity difficult to implement and maintain, whether in honest foreign investors in legitimate commercial enterprises within their quoted some recent examples, including investment projects fail due to financial mismanagement Mamtek sucralose plant in Moberly City, Missouri, as well as U.S. Citizenship and Immigration Services Bureau unprecedented halt the project of Victorville, California, Victorville Regional Center erroneously linked to the creation of employment and a wastewater treatment plant.

Empyrean West use the best practices in corporate management of the person in charge to rectify the problems the project, their business experience, including some well-known U.S. Fortune 50 international enterprises (including Kraft and Procter & Gamble business unit. Responsible for human Empyrean West bring operational Arizona's first experience of the approved regional centers - to understand the end-to-end control of the need to effectively manage a large number of enterprises parameters. Empyrean West to develop measurable other EB-5 projects gold standard ' - which is its Global Private Funding look to the advantages.

Empyrean Chief Executive Officer David Keller said: 'Empyrean Liberty Tracker proprietary software is the core of its unique system of protection of foreign investors. Unconventional use of foreign investors EB-5 escrow account through a strategic partnership on compliance matters rigorous due diligence, and the enterprises themselves to levy fines - Empyrean's efforts, not just for foreign investors, developers and the United States to impose the most stringent commercial lending standards - and even the company does not fulfill the employment obligation workers to create successful enterprises for sustainable development. '

Empyrean West Jay Carter, director of operations, said: 'Empyrean system and all other systems, the biggest difference is that the EB-5 projects are often out of touch with investors, they tend to be a broker by a group of uncontrolled charge investors 20,000 U.S. dollars to 50,000 U.S. dollars of funds, but it usually does not have any effectiveness. Empyrean allows direct registration of foreign investors to fully understand the investment, direct investment and synchronization informed investment process we practice to protect foreign investors to ensure secure stable income flow, and to establish a business in order to ensure income security in our own way. '

Global in Century City, California incubation center Andrew Halarewicz, senior vice president and branch manager, said: 'Only Empyrean has appropriate control and monitoring system, to protect the safety of investors' funds and ensure the success of the project. The Empyrean electronic data exchange with wages single, escrow account, legal and banking systems are combined to provide a comprehensive and transparent service for foreign investors, developers, and the citizens of the United States and Immigration Services Bureau (USCIS).
